

JONBESH AHMADZAI

AI & Data Engineer | Python · SQL · Machine Learning · Data Pipelines · BI
Brussels, Belgium • ionbesh.ahmadzai@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFILE

AI and data engineer who builds and ships end-to-end systems: from scraping 23,000+ records and engineering features, to training and comparing models, to deploying them behind a containerised API. Strong Python and SQL foundation with hands-on work across data pipelines, machine learning, geospatial analysis, and business intelligence. A business background means I build for the decision, not just the model. Fluent across 6 languages.

SKILLS

Data & ML	Python · Pandas · NumPy · Scikit-learn · XGBoost · CatBoost · Machine Learning · Exploratory Data Analysis (EDA) · Statistical Analysis · Feature Engineering · GeoPandas
Analytics & BI	SQL · PostgreSQL · Power BI · DAX · Power Query · Star Schema · Data Modelling · KPI Design · Excel (Advanced) · Streamlit · Data Storytelling
Engineering & Cloud	ETL Pipelines · ELT Pipelines · Pipeline Automation · FastAPI · Docker · Azure · REST APIs · Azure Blob Storage · Web Scraping · BeautifulSoup · Playwright · Git/GitHub
Business	Requirements Gathering · Stakeholder Communication · Process Analysis · Market Research · Strategic Recommendations · Data-Driven Decision Making
Currently Learning	AWS · Apache Airflow · Apache Spark · dbt · Databricks

FEATURED PROJECTS

Belgian Real Estate — End-to-End ML Pipeline

Python · SQL · Pandas · Scikit-learn · XGBoost · CatBoost · FastAPI · Docker

- Scraped 23,000+ property listings, performed full EDA, data cleaning, and geographic feature engineering; trained and compared 5 regression models (Linear, Random Forest, XGBoost, LightGBM, CatBoost)
- Selected CatBoost as best model (R^2 0.786, MAE €74,252); deployed as a FastAPI REST API containerised with Docker on Render, with documented data flows throughout

DragonYTE Brewery — Power BI Business Intelligence BeCode × Accenture Belgium

Power BI · DAX · Power Query · Star Schema · Data Modelling

- Use case via BeCode × Accenture Belgium partnership: designed a star-schema data model (3 fact tables, 4 dimensions) with 15+ DAX measures including CAGR, YoY growth, market share, and pricing forecasts
- Delivered a 4-page interactive executive dashboard covering market performance, competitive positioning, and channel strategy; outcome validated by Accenture Belgium professionals

Satellite Crop Classification Pipeline

Python · Sentinel-2 · Copernicus STAC API · Azure Blob Storage · GeoPandas · Scikit-learn

- Built an end-to-end geospatial ML pipeline: Sentinel-2 imagery ingestion, cloud masking, monthly compositing, a 117-feature spectral stack (NDVI/NDWI/NDBI), Random Forest classification, and GeoTIFF crop maps
- Designed for reproducibility with modular, credential-safe configuration so the pipeline can be rerun and extended as new data arrives

Market Watch Agent — Automated Intelligence Pipeline BeCode Partnership

Python · LLM APIs · Azure Blob Storage · Web Scraping · JSON Diffing

- Use case for a major banking institution via a BeCode partnership: built an automated pipeline that collected and classified product changes across 5+ competitor sources using LLM-based classification and Azure-backed state management
- Replaced manual monitoring with a reproducible, automated workflow using structured JSON diffing to track and surface genuine changes

EXPERIENCE

AI & Data Science Trainee

Feb 2026 - Present

BeCode · Brussels

- Intensive AI & Data Engineering bootcamp combining structured learning with hands-on project work; built ML pipelines, statistical models, geospatial classifiers, dashboards, and automated data systems across real datasets
- Completed partnership use cases including a Power BI dashboard via BeCode × Accenture Belgium, presented to senior professionals; consistently translated complex analytical outputs into clear conclusions for non-technical audiences

Marketing & Sales Associate

Jul 2024 - May 2025

GOGI · Brussels

- Turned customer engagement and behaviour data into insights that supported strategic sales and marketing decisions; built and maintained performance trackers and reporting used across teams

Digital Marketing & Sales Intern

Feb 2023 - May 2023

IKI Salads · Brussels

- Collected, organised, and analysed campaign performance data; produced competitor analysis and presented insights to support marketing decisions

EDUCATION

AI & Data Science Bootcamp · BeCode Brussels · Feb 2026 - Present | BSc Business Management · Odisee University, Brussels · 2020-2024

Bachelor of Business Administration · KU Leuven Brussels · 2018-2020 | International Baccalaureate Diploma · Eastern Mediterranean International School, Tel Aviv · 2014-2016

Certifications: SQL · Google Analytics · Analyzing & Visualizing Data with Excel · AWS Cloud Practitioner (In Progress) · Microsoft Azure Data Engineer (In Progress)

Languages: English (C2) · Persian (C2) · Turkish (C1) · Urdu (C1) · French (A2) · Spanish (A2) | Permanent EU Residence
