

JONBESH AHMADZAI

AI & Data Professional | ML · Data Engineering · Business Intelligence · Analytics
Brussels, Belgium · Permanent EU Residence · jonbesh.ahmadzai@gmail.com · [LinkedIn](#) · [GitHub](#)

PROFILE

AI & Data professional with a foundation in Business Management and hands-on experience building production-grade systems across machine learning, data engineering, and business intelligence. Delivered real-world projects for ING and Accenture Belgium through BeCode Brussels — an LLM-based competitive intelligence agent and an executive Power BI dashboard, both presented to senior professionals. Every project connects technical execution to genuine business value.

TECHNICAL SKILLS

ML & AI	Python · Scikit-learn · Machine Learning · Classification · Clustering · Regression · Survival Analysis · Geospatial ML · LLM APIs · Feature Engineering
Data & Analysis	SQL · Pandas · NumPy · EDA · Data Cleaning · Statistical Analysis · Longitudinal Data · Matplotlib · Seaborn · Plotly · SPSS
Engineering & BI	FastAPI · Docker · REST APIs · Web Scraping · Multi-threading · Azure Blob Storage · Git/GitHub · Power BI · DAX · Power Query · Star Schema · Streamlit

FEATURED PROJECTS

Market Watch Agent — Competitive Intelligence · ING × BeCode

Python · LLM APIs · Azure Blob Storage · Web Scraping · JSON Diffing

- Built for ING via BeCode partnership: automated pipeline detecting and classifying banking product changes across 5+ competitor sources using LLM-based classification and Azure-backed state management
- Eliminated daily manual monitoring by implementing structured JSON diffing and persistent change-tracking — presented to ING senior professionals

DragonYTE Brewery — Executive Power BI Dashboard · BeCode × Accenture Belgium

Power BI · DAX · Power Query · Star Schema · Data Modelling

- Real BI case study via BeCode × Accenture Belgium: star-schema model (3 fact tables, 4 dimensions), 15+ DAX measures including CAGR, YoY growth, market share, and pricing forecasts
- 4-page interactive executive dashboard covering market performance, competitive position, and channel strategy — presented directly to Accenture Belgium professionals

Satellite Crop Classification Pipeline

Python · Sentinel-2 · Copernicus STAC API · Azure Blob Storage · GeoPandas · Rasterio · Scikit-learn

- End-to-end geospatial ML pipeline: Sentinel-2 imagery → Azure storage → cloud masking → 117-feature stack (NDVI/NDWI/NDBI) → Random Forest classifier → GeoTIFF crop maps
- Modular, reproducible architecture with credential-safe config management and majority-filter post-processing

EXPERIENCE

AI & Data Science Trainee

Feb 2026 – Present

BeCode · Brussels

- Delivered production ML systems, cloud-integrated pipelines, REST APIs, geospatial classifiers, and executive BI dashboards for ING and Accenture Belgium
- Followed professional engineering standards: modular src/ packages, Docker containerisation, Git version control, and credential-safe configuration management

Marketing & Sales Associate

Jul 2024 – May 2025

GOGI · Brussels

- Analysed customer engagement and consumer behaviour data to refine targeting and support strategic sales and campaign decisions

EDUCATION

BSc Business Management · Odisee University, Brussels · 2020–2024 | BBA · KU Leuven Brussels · 2018–2020 | IB Diploma · Eastern Mediterranean International School, Tel Aviv · 2014–2016

Certifications: SQL · Analyzing & Visualizing Data with Microsoft Excel · Google Analytics · Content Marketing · SEO Fundamentals · AWS Cloud Practitioner (In Progress) · Microsoft Azure Data Engineer (In Progress)

Languages: English (C2) · Persian (C2) · Turkish (C1) · Urdu (C1) · French (B2) · Spanish (A2)
